Education

VIT Bhopal University | Bhopal, Madhya Pradesh
BTech in Computer Science Engineering

Cumulative GPA: 8.7/10

DL DAV Model School | Delhi
12th Standard CBSE
10th Standard CBSE

Percentage: 84.8% (July 2022)

Percentage: 89.4% (July 2020)

Projects

[Lumina-HQ \(Multi-Tenant Document Analysis Tool\)](#) | [Repository](#) | Clerk, Google Gemini API, Next.js, Pdf-parser, Prisma, Shadcn, Tailwind CSS, Vercel Blob

- Engineered a secure multi-tenant SaaS architecture utilizing **Prisma** for robust database-level workspace partitioning, paired with **Vercel Blob** and Next.js Server Actions to streamline type-safe, concurrent cloud file uploads.
- Integrated the **Google Gemini AI API** to architect an automated document processing pipeline, extracting metadata, executing real-time summarizations, and handling text parsing from unstructured PDFs smoothly.

[InterCodingView \(Online Coding Interview Platform\)](#) | [Repository](#) | Clerk, Convex, Next.js, React, Shadcn, Stream API, Tailwind CSS, TypeScript

- Developed a reactive backend sync layer using **Convex**, achieving sub-100ms real-time state synchronization across shared coding environments and eliminating traditional REST polling overhead.
- Integrated the **Stream API** to power low-latency video streaming, screen sharing, and automated session recording, optimizing the frontend with modular UI components to hit a **95+ Google Lighthouse performance score**.

[AUTH \(Authentication Service\)](#) | [Repository](#) | Express, Framer-motion, Mongoose, Nodemailer, React, Tailwind CSS

- Built a robust, custom authentication backend using **Express**, **Mongoose**, and **JSON Web Tokens (JWT)**, implementing secure password hashing with **Bcryptjs**, cross-origin cookie-parsers, and automated onboarding email triggers via **Nodemailer**.
- Designed a fully responsive client-side interface using **React Router** and **Tailwind CSS**, managing fluid micro-interactions with **Framer Motion** and establishing global client state management via **Zustand**.

Certification

- Oracle Java Foundations Associate
- IBM Cyber Security Analyst
- Google AI Essentials
- Google Prompting Essentials
- Bits and Bytes of Computer Networking

Technical Skills

Languages: JavaScript, Java, HTML, CSS, Python, TypeScript

Frontend: React, Next.js, Tailwind CSS, Shadcn UI, React Router, Framer Motion, Zustand

Backend: Node.js, Express, REST API, Bcrypt, JWT, HTTP Cookies, Convex

Databases & Caching: MongoDB, Mongoose, SQL, Prisma

Tools & Integrations: Git, GitHub, Postman, Render, Clerk, Vercel Blob, Stream API

Additional

Languages: English, Hindi, Basics of Spanish
